**This transcription is part of a collection of Lurgan records which I accumulated through many years of research. I was motivated to seek out the records after discovering that one of my ancestral grandmothers was a Lurgan Quaker.**

**Finding the extracted vital records was not too hard, but I soon learned that the detailed meeting records were apparently available only at the Irish repositories. Finding entries of interest in these records can be a lengthy and tedious ordeal, due to the crabbed hand-written source and a limited index at the repositories. I hope that this transcription and comprehensive index will help others to more easily find ancestors in the Lurgan minute books, at least for the years included here.**

**The transcription is intended to serve as a research aid only, and should not be considered a perfect reflection of the source records. The original records should be consulted to verify any entries of importance.**

**Irish records can be found at the Friends Historical Library in Dublin, the Public Record Office of Northern Ireland (PRONI) in Belfast, and the National Archives in Dublin.**

**Anyone who is interested in the Lurgan Quakers should read the "History of the Religious Society of Friends in Lurgan," written by Arthur G. Chapman, published in 1997 by Lurgan Friends Meeting (Universities Press, Belfast). This excellent history provided inspiration and guidance for my own studies.**

Notes:

The manuscript page numbers were apparently added in modern times.

Old style dates: 1 Mo = March. New year is March 25.  
11Mo = January; 12 Mo = February.

Abbreviations:

The clerks and/or later copyists often used the letter y to represent the sound th in abbreviating common short words. They added superscripts to the y to represent different words. Similarly, other abbreviations used the first letter of a word, with the omitted part represented in the superscript by one or more letters, or just a mark.

The friends appointed to represent ye meetings dissatisfaction of ye meeting being so often in ye Country, did do it & ye following accot is what was ordered by friends at ye Pro: meeting held at Ballyhagan ye 30<sup>th</sup> day of ye 4 mo 1711.

Whereas at a Pro: Meeting held at Ballyhagan ye 17<sup>th</sup> of ye 4 mo 1710, there was laid before sd meeting that there was a great uneasiness in & amongst friends belonging to Lurgan meeting, occasioned because their meetings being so often held in ye Country, upon which ye sd Pro: meeting appointed several friends as a select meeting to consider & weigh ye various Circumstances thereof, also for ye future to make a settlement thereon; which sd select meeting did at that time according to ye best of their understandings having under thier consideration the danger of ... that some had already gott, & likely to suffer upon sd account is not suddenly removed Notwithstanding ye alterations that was then made & concluded & concluded upon by ye sd select meeting now again at this meeting, several belonging to ye sd Lurgan meeting hath shewed & said do that there still remains, or rather Increases, great uneasiness concerning holding their said meetings according to ye above sd settlement, which hath occasioned a great deal of discourse in this meeting & at last came to this result (viz) to appoint a select meeting again to take the matter into their consideration, & make such alteration as they might see most likely for ye .. of .. if possible that peace & love might be restored, kept & prosper in & amongst them instead of the said uneasiness that hath been and still is too much present amongst members of the said Lurgan meeting about the foregoing matter. ... (Note in margin: Alteration of ye meeting.)

Pg 10 1711

Now we haveing had the matter thereunto belonging ... concluded (that is) that the week days meeting is allways to be held at Lurgan, & from ye first day of ye 5 mo until ye last of ye 5 mo successively for ye said 3 months to have on ye first days by equal turns, once meeting in Lurgan & another in ye Country & all ye Collection days which may fall out to be the Countrys turn to be held at Lurgan without giving any meeting for it, or in Lieu thereof: which the one half of all the first days meetings to be held at Lurgan in

the said three months, & all the Collection days that may happen to fall out to be the Countrys turn, given to Lurgan over & above ye one half, and for ye other 9 months (that is) from ye last of ye 5<sup>th</sup> mo untill ye first of ye 3 mo that it may be only once a month, a first days meeting held in ye Country: this soe there may reasonably give satisfaction unto the uneasy party about ye meeting being so often held in the Country however we heartily desire it may be for the future that the members of the said Lurgan meeting my seriously & weightily consider matters at home amongst themselves that are most properly ought to be ended & Concluded in their own mens meeting & not so often bring those things to Pro: meetings that might be done otherwise away which occasioned some uneasiness several times to the Prov: meeting both now & heretofore: this hint we give in Love, good will & due respect as a gentle Caution for the future.

Whereas William Andrew several years agoe Seemd to be convinced of ye blessed truth, came to our religious meetings, & Joined himself in fellowship wth us but not keeping in subjection to ye spirit of truth wch leads unto all truth, & enables those yt are led & guided by it to order their conversations aright, & thereby brings honour to God & draws down his favour & blessing, upon them, When on ye (Contrary history & slight & reject ye dictates of this holy Spirit fully into unwatchfullness & gives ye enemy ye means hapiness an opportunity to prevail over them & lead them into ()) as may be said of ye Said William, who of late for his ends hath either taken an oath or conformd, so much so & manner of takeing it yt it called for an oath, & did not bear a faithfull testimony against Swearing as many of our ancient friends & Brethren have done according to our Lord & Saviours command, who saeth swear not at all Matt: 1 5<sup>th</sup> & by their firmness & consistency to observe this & keep a good conscience have suffered worry deeply both in body & goods, but ye testimony of truth being dropt by him & thereby our holy profession dishonoured & ill spoken of, & do think it our duty to give testimony against ye said William for his so doeing & therefore he stands out of unity & fellowship with us, till he come to a sense of his transgression, & walk up more faithfully to our principles as he hath hitherto done in other matters besides this for wch he hath been often loveingly admonished, yet persisted in his rough course of living contrary to ye peaceable way of righteousness, so tht tho he may out of form, appear as one of our Society we have not fellowship wth him, and desires tht what sin, disorderly practice, or inconsistent behaviour, to our holy principle yt he acts or committs may be charged upon himself.

Whereas Margrett Simpson hath for many years made a proffession of truth wch had she kept in ye possession of would have preserved her from falling into ye temptations of ye enemy, & enabled her to bear a faithfull testimony, for Christ when tried & called thereto but it appears yt she rashly & inconsiderately engaged in a Suit of law, or prosecution of a person she thought wronged her upon a slender & weak evidence without takeing advice of friends & whose ye matter came to a determination before ye Judge of Assize as she was demanded to swear, she did not stand faithful in her testimony against Swearing, according to our Lord & Saviour command but conformd so yt her compliance called for an oath which hath given great occasion for many to open their mouths against us, & brought reproach upon ye truth, wherefore ye Said Margrett is disowned by us of being of our profession & is out of unity & fellowship wth us untill she came to a sence of her transgression & heartily & sincerely repent.

Whereas William Robson hath been educated in ye way of truth & came to our religious Meetings from his Childhood, but not into a due subjection & obedience () grace of God, did not come to wittness a being caught thereby effectually to order his conversation aright as becometh a whole profession, but took as much liberty in some things which hath tended to ye dishonour of truth as in particular his rash undertakeing a law Suitt wthout seekeing ye advice of friends, & to curry his point therein conformd so farr to ye manner of takeing an oath yt it passed so & did not bear a faithfull testimony against swearing as behooves all those to do who believes oaths to be abolished, & yt our Lord & Saviour command ought to

be observed, & this having brought a reproach upon our holy profession, & opened a way yt may lend to bring sufferings upon others, & do think it our duty to bear our testimony against him for these practices, & he stands out of unity wth us, untill he amend his ways & lives up according to our proffession (viz) Soberly, righteously & Godlily.

A testimony being brought to this meeting, concerning our dear friend Robt Hoope lately deceased, containing some acctts of his faithful labours & service for ye truth, which being read in this meeting, Wm Dover, Jno Nicholson, Timothy Kirk, Alexr Mathew are desired to peruse ye same, & make such amendmts & aditions as they may think needfull, & get ye same fairly drawn over, & present it to next province meeting viz

He was born near Gisbrough in Yorkshire ye 10<sup>th</sup> day of ye 8 mo 1739 (sic 1639) of honest parents who educated him in ye profession of ye Church of England. In ye year 1666 he came over into Ireland, &

about 3 years after married Elinor Hodskinson of honest parents from Preston in Lancashire according to the rules of profession wherein he had been educated, & settled in Lurgan in ye County of Ardmagh, continuing in ye said denomination of religion untill after the birth of his first child, who was sprinkled, soon after which ye Lord was pleased Inwardly to enlighten his understanding so that he saw ye emptiness of those shaddows & Ceremonies.

When his second child was born he could not suffer him to be sprinkled with Elementary water, & altho his conscience was awakened to seek for a.. habitation in ye heavens, yet at that time, he had not Joined himself with ye people of God called Quakers untill about ye year 1667 or 1668. It pleased ye Lord to send his Eminent & faithfull servant Thomas Low into those parts by whose powerful ministry he was so effectually reached that thenceforth he assembled himself with ye small flock that was then gathered hereaway, after which he mett with many trials in spirit & persecution by loss of goods & Imprisonment at Ardmagh for the testimony of a good conscience towards God, wherein he approved himself both patient & faithful, so that in a few years after his convincement, ye lord was pleased to open his mouth in testimony for his truth in ye assemblies of his people, wherein altho he neither seemed forward, nor appeared in excellency of speech yet his ministry was adorned with ye simplicity of ye Gospel & attended with ye sweet spring of life whereby ye hearts of many have been often refreshed & in this service he laboured not only visiting ye Churches divers times in the Nation, but in England likewise to ye comforting of ye sincere hearted amongst the people of God, & as he received a gift in ye Ministry so a large share of ye care of ye Churches in this province fell upon him in discipline he labouring for ye preservation & perseverance of ye righteous in ye comely order of ye Gospel & often called upon ye disorderly to repent & amend their ways, & Indeed we may say that ye Innocency & peaceableness of his conversation gave reception to his counsel & admonition he being well beloved by faithful friends & by ye generality of his neighbours who were acquainted with him.

He was one who greatly loved ye servants of ye Lord, delighted to entertain them in his house & encourage them in their services tho never so young, & was a true simpathizer with them in their trials & travels of spirit, & tho a faithful Elder, yet free from ostentation, loving to prefer others before himself.

And tho we are willing to confine ye Character of this our Dear deceased friend to a narrow compass, knowing we cannot add any thing to his happiness, yet permit us to say that he was a lover of peace, & a peace maker ready to compose debates & differences when they fell out within his observation & to forgive Injuries, And one who about 20 years before his decease when his health & Capacity might have allowed him to pursue ye affairs of this life, he seperated himself from ye Incumbrances thereof, living a life of solitude & meditation, devoting himself to ye service & promotion of truth, whilst his Capacity & ability continued, being a good example & patern to ye flock & family of Christ.

He not being a ready writer, kept a Journal of his labours & services for truth in a regular manner, nevertheless did note some occurences which are Collected & may be Communicated for future edification if seen convenient.

Towards ye conclusion of his time notwithstanding bodily Infirmary seized him, yet he was sweet in spirit & loving untill his end, & ye last expression that could be understood from him were that he was going to ye house of God, as

Pg 86 1720

the end drew near, came to be seized with more pain than formerly which he bore with patience, on ye 27<sup>th</sup> of ye 12 mo last his weakness increased & on ye 28<sup>th</sup> being first day, he lay sweetly without much motion of any part of his body for about 17 hours, & about ye 2d hour in ye morning on ye 29<sup>th</sup> of said month, he peaceably departed this life, & on ye 1<sup>st</sup> of 1 mo following was decently buried in friends burying ground in Lurgan, accompanied by many friends & others, aged above 80 years, a Minister abt 46 years.

Given forth at a Province meeting held in Lurgan ye 30<sup>th</sup> of 2 mo 1720.

Dr ffriends This is to acquaint you tht Bartho: Garnet, for & on behalf of Abel Strettell, a member of your meetg made a complaint to our last mens meetg of Jno Greer, tht he refused to pay a promisory note of 50L favour Amos Strettell & desired us either to prevail wth ye said Jno Greer to pay tht money, or to give liberty to proceed against him according to Law & ye sd Jno being present when ye sd complaint was made, the question was put, why he would not pay it, his answer in part was, he could not but ye chief reason is, tht he received no other value for it thn Amos's promisory note payable 12 months after, wch at tht time he expected to be good, because Amos was thn in his business, & tho under some straits his circumstances was so represented to him, as ye sd money wouldbe safe & solvent, but it appearing otherwise since, by reason of matters coming hereupon Amos thn was expected, he therefore now is tht he should pay ye sd L50 tht he will lose it, or ye most part of it, therefore will not be prevailed upon to pay it, which with other matters as represented to us, occasions us to be Cautious in giving leave to proceed against him according to law, we being apprehensive of diverse reproachfull Inconvenience tht may attend such liberty, for doubtless if John be prosecuted at law, he will take ye same methods against Amos when ye 12 months are expired: Therefor for asmuch as ye matter had its rise in Dublin, & severall friends there have a better knowledge of ye Justice & nature of ye case, thn we can, by sundry acct which perhaps are not truly represented to us & Jno Greer being now in Dublin, from whom you may have a full acct why he will not pay ye money, & therefore, we Intreat you to speak to him, acquaint your selves wth ye nature of ye case, consider ye matter, & then be pleased to favour us with your advice how we shall behave according to truth, in giving our Judgment therein, that friends may be of one mind, and Love unity and a good understanding may be preserved in the Churches. ## Lurgan, Ireland Friends Meeting Minutes

### Mens Preparative & Particular Meetings

#### Name Index for Minute Book Two (1710 - 1729)

Two hundred and fifty nine surnames can be found in Book Two, more or less, depending upon whether some of the similar spellings are the same name or not. The old families of Book One, with their descendants, remain a majority.

Spelling has been made consistent for indexing, although variations appear in the text. Most, but not all the people mentioned were local Quakers. Some of the references are to deceased members, some to Quakers in other places, and some to non-Quakers being dealt with. The manuscript should be consulted regarding any suspected omissions or errors here.
